Les Grains Marselan

IGP Méditerranée

Soil :

This cuvée is grown on South-facing plots made of clay and limestone.

Grapes :

100% Marselan

Harvest and Vinification :

The harvest is done early enough to keep all the freshness of Marselan. The temperature is controlled during vatting and pressing. The work of the marc keeps velvety tannins.

Tasting :

The color is dense, dark, deep. The first nose is balsamic with notes of juniper. Notes of blackberry liqueur and sweet spices are revealed. In mouth the attack is rich, powerful, with velvety tannins but very present. A touch of liquorice combined with hints of garrigue make up the aromatic perceptions of the palate. A beautiful persistence...

Sommelier Advices :

This wine will be perfect during an appetizer but will also be a perfect match with Asian flavors such as sushi or a wok of vegetables.
